- H** Access extensive help on using the fullCAM software

the national carbon accounting
toolbox
v1.0 march 2005

This CD contains a set of tools for tracking greenhouse gas emissions and carbon stock changes from land use and management.

It includes:

- all technical reports published to date as part of the National Carbon Accounting System - in a fully searchable format
- the FullCAM modeling software
- access to the National Carbon Accounting System data archives
- other supporting technical documentation.

See <http://www.greenhouse.gov.au/ncas> for further details.

Developed by the Australian Greenhouse Office in collaboration with the CSIRO and the Australian National University.

SYSTEM REQUIREMENTS

Operating System	Win2000/NT4SP6/XPSP2
CPU	233MHz Pentium or faster
Memory	256MB
Disk	120MB for software
Display	800 x 600 (or higher) with true color
Optical Drive	CD-Rom
Browser	IE5.5

INSTALLATION

1. Place the disk in your CD-ROM drive and follow prompts.
2. Select 'Install Toolbox' - requires around 120MB spare disk space.
3. Use the File Manager if you wish to change the location of toolbox files after installation.
4. To uninstall, select 'Add/Remove Programs' from the Windows Control Panel.
