

## National Carbon Accounting Toolbox

### Browsing and Searching Technical Reports

#### Toolbox Home

After starting the National Carbon Accounting Toolbox, use the:

- quick links to view details
- toolbar to navigate the toolbox
- Browse button to view documentation.

The screenshot shows the National Carbon Accounting Toolbox website. Annotations include:

- Toolbar:** Points to the navigation bar at the top containing Back, Forward, Home, Browse, Search, Find on Page, Run FullCAM, and Help buttons.
- Browse button:** Points specifically to the 'Browse' button in the toolbar.
- Quick links:** Points to a vertical list of links on the left side: about, reports, fullCAM, and disclaimer.

The main content area features the title 'national carbon accounting toolbox' and the tagline 'Providing tools to enhance sustainable land management'. It includes a description of the toolbox's purpose, a list of uses, contact information, and a disclaimer.

## Field Search – Examples

The first screenshot shows the 'Search Documents' window with the 'Field Search' section. The 'In Field' dropdown menu is open, showing a list of fields: Title, Author, Organisation, Date, Subject, No, Series, and File. The 'Subject' field is highlighted. A 'Search' button is visible to the right of the dropdown menu.

The second screenshot shows the 'Search Documents' window with the 'Field Search' section. The 'In Field' dropdown menu is now set to 'Subject'. The 'Search For' dropdown menu is open, showing a list of search terms: Land Cover, Biomass, Climate, Land Use, Modelling, and Soils. The 'Land Cover' term is highlighted. A 'Search' button is visible to the right of the dropdown menu. Below the dropdown menu, a list of search results is displayed in a table format.

Select fields from pull down menus and click search to find all reports relating to those fields

## Opening Technical Reports

You can

- Double click on pdf files listed in the search window to open technical reports
- Use the electronic table of contents within Adobe Acrobat to navigate each report.

The image shows a search window titled "Search Documents" and an Adobe Acrobat PDF viewer. The search window has a "Full-text Search" section with a search box containing "wood products" and a "Search" button. Below it is a "Field Search" section with a dropdown menu set to "Organisation" and another "Search" button. At the bottom of the search window are "Clear" and "Help" buttons. The search results are displayed in a table with columns for Title, Author, Subject, and Date.

Title	Author	Subject	Date
Agricultural Land Use and Management	Swift, R. & Skjemst...	Land Use	2002
Analysis of Wood Product Accounting Options	Jaakko Poyry Cons...	Biomass	2000
Biomass Estimation: Approaches for Assessment of Stocks and Stoc...	Richards, G.P.	Biomass	2002
Carbon Accounting Model for Forests (CAMFor) User Manual Versio...	Richards, G. & Eva...	Modelling	2000
Carbon Content of Woody Root Components: Revised Analysis and ...	Gifford, R.	Biomass	2000

The Adobe Acrobat viewer displays the PDF file "FILE:///C:/Program Files/NCAToolbox/reports/tech\_reports/tr27/final.pdf". The document's table of contents is visible in the left sidebar, listing sections such as "Cover", "About the Authors", "Chapter 1 - Biomass Estimation: S...", "Chapter 2 - Spatial Estimation of F...", "Chapter 3 - Stratification of Austral...", "Chapter 4 - Report of AGO Worksh...", "Chapter 5 - Derivation of Indicative...", "Chapter 6 - Comparing Total Tree \...", "Chapter 7 - Forecasting Carbon Se...", "Chapter 8 - Remote Sensing and L...", "Chapter 9 - Development of Nation...", "Series Publication", and "Back Cover". The main content area shows the cover of the report, titled "national carbon accounting system" and "Biomass Estimation: Approaches for Assessment of Stocks and Stock Change", edited by Gary P Richards. The cover features a photograph of a forest and the text "technical report no. 27". The Adobe Acrobat interface includes a toolbar with options like "Save a Copy", "Print", "Email", "Search", "Review & Comment", and "Sign". The status bar at the bottom indicates "1 of 152" pages.

Electronic table of contents clickable/viewable via Adobe Acrobat bookmarks tab

## Finding on Page Within Technical Reports

You can

- Use 'Ctrl-F' on keyboard to find keywords within Technical Reports as with standard documents.

The screenshot shows a PDF viewer window with a search bar at the top right. The search term is "wood products". The search results are displayed in a list on the right side of the window. The results include several instances of the text "wood products" from the document, such as "Baseline Wood Products Model 12 Fi...", "and wood products, Plantations Carry...", "Wood Products in 1999 the NCAS...", "Australian wood products sector (Jaa...", "series, wood products model. Later w...", "of wood products. The NCAS Wood F...", "NCAS Wood Products Model is const...", "for wood products at a national level...", "model wood products accounting con...", "for wood products accounting at a pro...", "Wood Products Model Figure 3. 1990...", "Baseline Wood Products Model Expo...", "for wood products will be a solid...", "for wood products, wood product type...", "Wood Products CAMFor Crops Debris...", "for wood products. This is a complex...", "of wood products, NCAS Technical R...", "of wood products. The focus of the...", "the wood products made from harvest...", "reconstituted wood products. These...", "wood products, NCAS Technical Rep...".

The main content of the PDF is visible in the background. It includes a table with columns for Year, Production, Import, and Export, and a diagram showing the relationship between the Life Cycle Analysis and the Wood Products Model.

Year	Production	Import	Export
1995			
..			
..			
2000			

Figure 3. 1990 Baseline Wood Products Model

## Help

You can

- Use the Help button for further assistance in operating the Toolbox.

# national carbon accounting toolbox

## Help

The software and technical reports in the National Carbon Accounting Toolbox will assist in tracking greenhouse gas emissions and carbon stock changes from land use and management.

The Toolbox integrates the most current results and methods, and all technical reports published as part of the National Carbon Accounting System in a fully searchable format.

It also includes the FullCAM model for those wishing to estimate and predict carbon flows associated with all biomass, litter and soil carbon pools in forest and agricultural systems. It is recommended that FullCAM be used in conjunction with the supporting technical documentation.

Use the toolbar to:

- Browse** view or sort reports alphabetically
- Search** search reports for keywords or by subject, author
- Find on Page** search for keywords or substrings on the page
- Run FullCAM** execute the FullCAM model
